

INTERACTIVE DISPLAY  
SOLUTIONS | SPRING 2023

All projected images simulated.

# BrightLink —

the world's best-selling  
interactive projector\*.

Over **80%**  
market share  
in the U.S. and Canada\*

## A collaborative solution for today's classrooms

Epson's BrightLink collaborative display solution connects teachers, students, technology and ideas into one seamless digital experience, facilitating learning, communication and collaboration by turning virtually any flat surface into an interactive one. Available in laser and lamp-based models, BrightLink is the perfect display solution for classrooms, study spaces, administrative offices and more. Built for today's learning environments, these displays offer whiteboard sharing for local, on-campus collaboration as well as engagement with remote participants nearly anywhere in the world.

## More than 10 million students learn on Epson® displays every day

Leading schools and universities across the globe rely on BrightLink to help bring their best ideas to life. BrightLink interactive displays change the way technology, users and their ideas converge by creating a seamless digital interactive experience. With a large, bright display that is optimized for outstanding readability, BrightLink's leading-edge interactive features and versatile connectivity options make it the ultimate interactive display for modern classrooms.

# Create, collaborate and share with the BrightLink interactive display solution.

## PC-free whiteboarding

Save, print and email lessons directly from the display.

## Up to 8 users\*

Accommodate multiple users with dual pen and six points of touch.

## Image size up to 120"¹

Scalable; adjust to the surface area you have available.

## Collaborative2

Share content on other network-connected BrightLink displays.

## Remote learning made easy

Share content with remote learners using leading conferencing applications, including Google Meet™, Zoom and Microsoft Teams®.

\* Requires optional touch module on BL760Wi/770Fi/1480Fi.

Extra-large  
digital whiteboard

Collaborate from  
nearly anywhere

Connect from a range  
of mobile devices<sup>3</sup>

## Versatile

Delivers immersive images without compromising whiteboard space.

## Engaging

Interactive up to 120"1 on virtually any flat surface.  
Purpose-built for education.

## Affordable

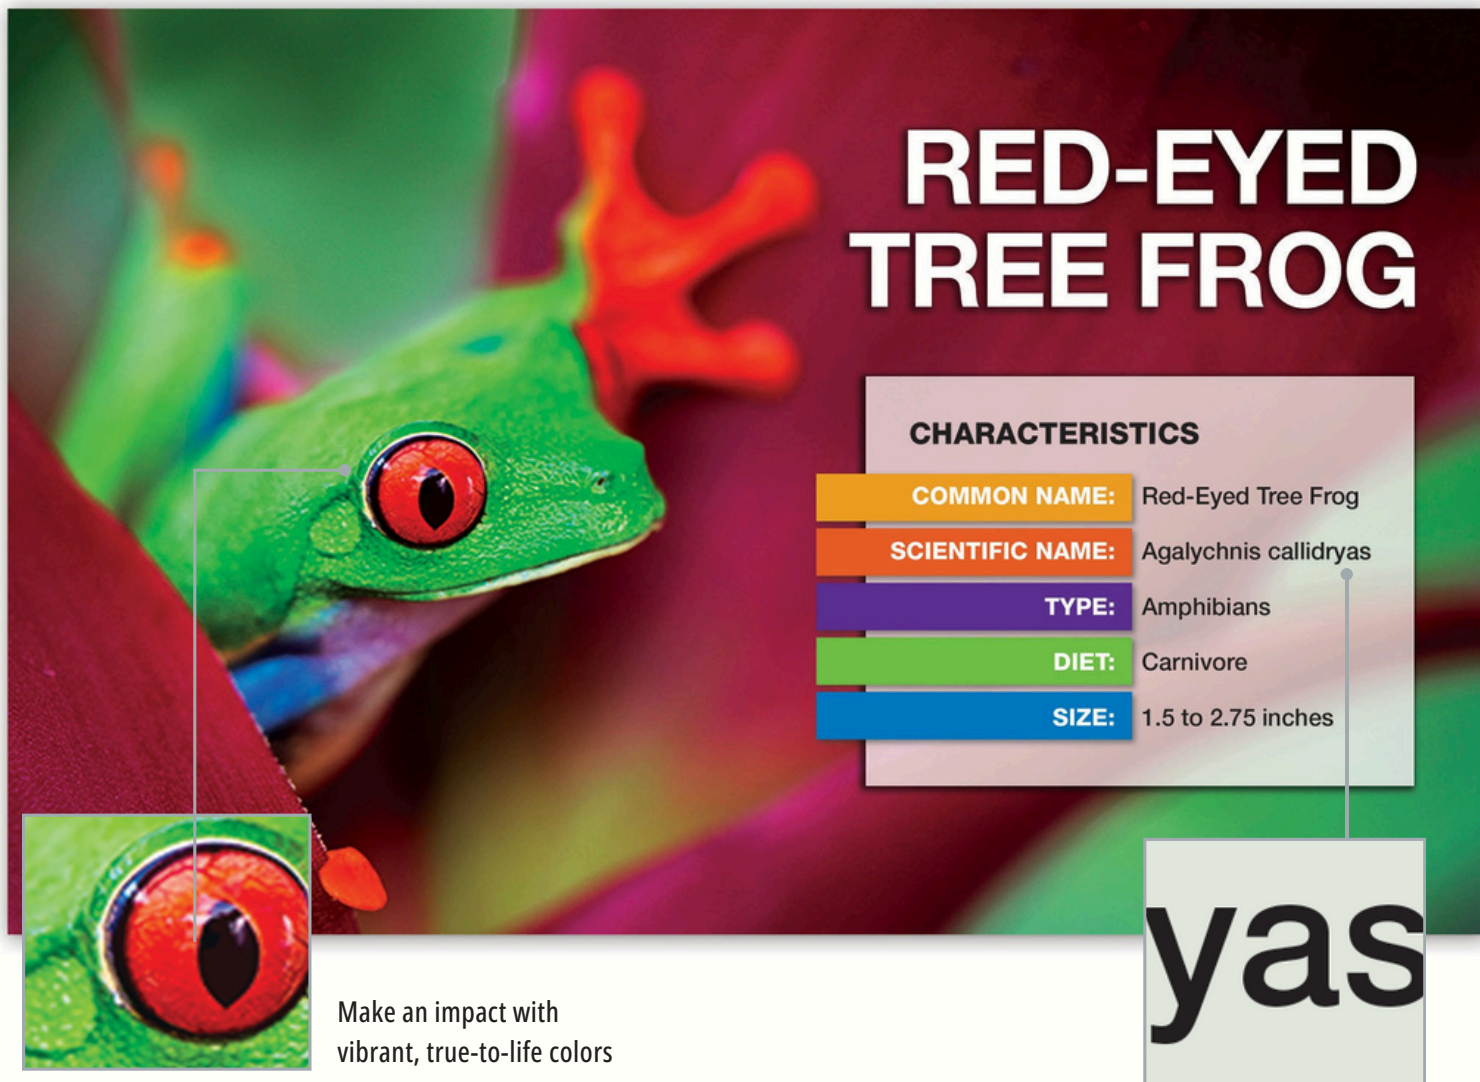

BrightLink offers the lowest-cost image per square inch vs. interactive flat panel displays<sup>4</sup>.

## Connectivity

Seamlessly integrates with Chrome™, Mac®, Windows®, Android™ and iOS® devices<sup>3</sup>.

## Reliable

Virtually maintenance-free 20,000-hour laser light source<sup>5</sup> with no lamps to replace — ever.

# RED-EYED TREE FROG

| CHARACTERISTICS  |                       |
|------------------|-----------------------|
| COMMON NAME:     | Red-Eyed Tree Frog    |
| SCIENTIFIC NAME: | Agalychnis callidryas |
| TYPE:            | Amphibians            |
| DIET:            | Carnivore             |
| SIZE:            | 1.5 to 2.75 inches    |

Make an impact with vibrant, true-to-life colors

## Amazing image quality.

### The power of image quality

When it comes to creating captivating lesson plans that enhance collaboration, image quality makes all the difference. That's why BrightLink displays are engineered to deliver a stunning, true-to-life picture that can be seen from nearly anywhere in the classroom.

To achieve outstanding image quality, our displays utilize 3LCD technology. This sophisticated, innovative technology uses three chips to deliver bright, vibrant images that bring content to life.

### BrightLink displays also offer:

- Accurate, color-rich presentations •

Convenient sharing and  
multitasking features

- Flexible design with easy installation

- 5-year limited warranty\*

\* Available on BrightLink 760Wi, BrightLink 770Fi, BrightLink 1480Fi and BrightLink 1485Fi. Brighter Futures® registration required.

# Connect, view, collaborate.

## Enhance learning with dynamic software

Designed for collaboration, BrightLink displays provide the tools teachers need to maximize participation in classrooms and hybrid learning environments. From Epson iProjection™<sup>3</sup> to the BrightLink GoBoard™ Wireless Collaboration and Integrated Whiteboard Solution, BrightLink displays offer connectivity to our most innovative software solutions<sup>6</sup> for easy sharing while on the go.

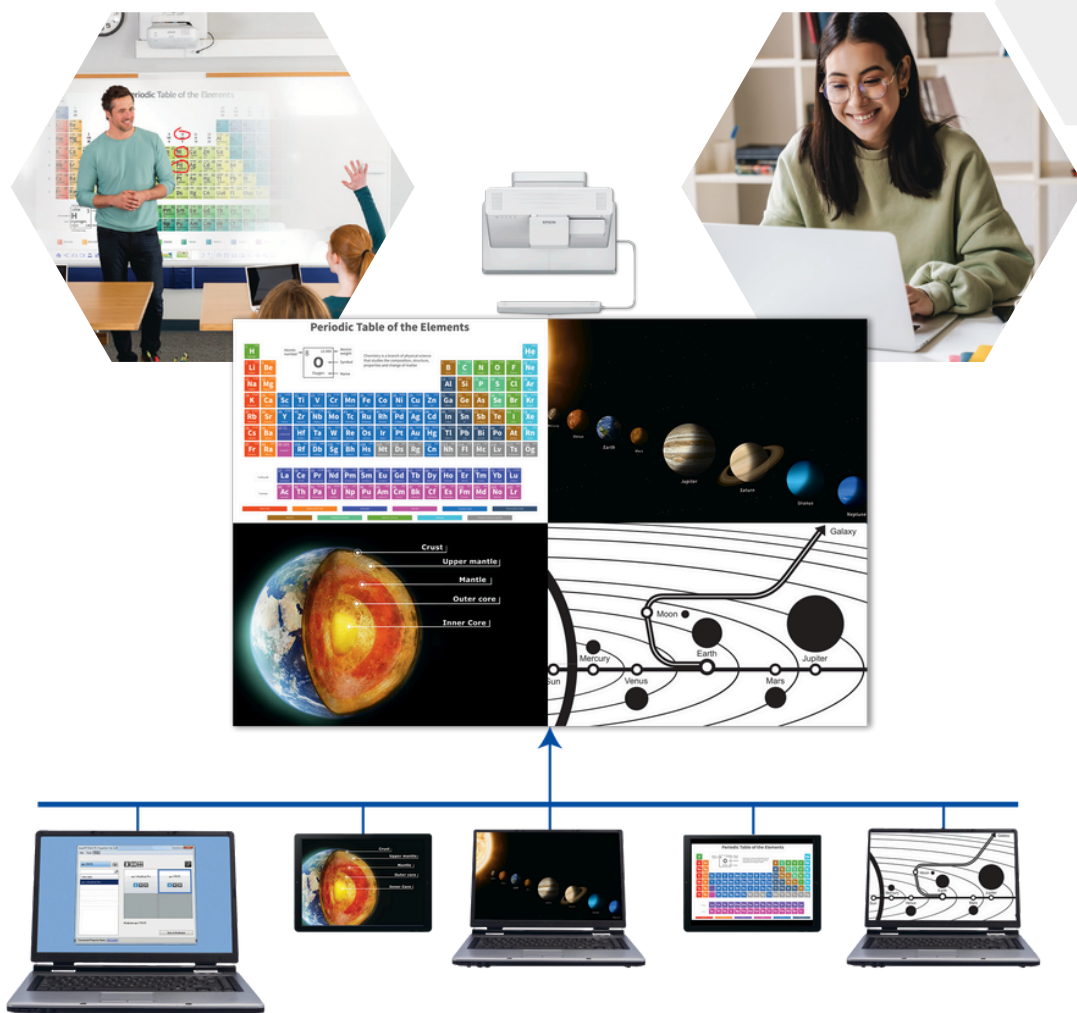

## Epson iProjection app

Complimentary Epson iProjection software<sup>3</sup> enhances classroom collaboration by allowing teachers

and students to connect, display and share content simultaneously to and from up to 50 connected devices<sup>3</sup>. Providing wireless connectivity to Chromebook™, iOS and Android mobile devices<sup>3</sup>, the app makes it easy to view learning materials from nearly any location.

## BrightLink GoBoard

Optimized to enhance BrightLink displays, BrightLink GoBoard supports hybrid classrooms with dynamic, collaborative features, allowing both students and teachers to share and stream mirrored content in real time from multiple devices. BrightLink GoBoard works alongside popular video communication tools to enhance the virtual learning experience between student and teacher. The software hosts a variety of file types, including Microsoft® Office documents, PDFs, photos, videos, audio and some legacy files from SMART and Promethean®. **EPSON®**

1 Varies by model/aspect ratio; BrightLink 760Wi is maximum 100" 16:10; BrightLink 770Fi is maximum 100" 16:9; up to 110" 16:6; BrightLink GoBoard 780Fi is up to 100" 16:9; BrightLink 1485Fi is up to 100" 16:9; 120" 16:6. | 2 Requires 1480 Series, compatible with 700 Series. | 3 For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner's manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See [www.epson.com](http://www.epson.com) for details. | 4 Versus comparable interactive flat panel displays measuring 65-inches and above. PMA Research data for 2020 1Q, North America. | 5 No required maintenance for the light source for up to 20,000 hours. Approximate time until brightness decreases 50% from first usage. Measured by acceleration test assuming use of 0.04 – 0.20 mg/m3 of particulate matter. Time varies depending on usage conditions and environment. Replacement of parts other than the light source may be required in a shorter period. | 6 Internet connection required for download. Data usage fee may apply. | 7 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118. | 8 Pixel shifting technology achieves Full HD resolution on screen. | 9 Split Screen feature requires remote control. Consult your user manual for input combinations. | 10 Requires Easy Interactive Driver. Certain functionality is only available through Epson Interactive Tools (EIT) software.
